Corporate information

Greeting

Our company was founded in 1958 with the fabrication of thermosetting resin. Since then, we have been producing important parts of goods used as a face in various fields. We have been extending our manufacturing field to injection molding with secondary processing such as paint and finished-goods assembly etc, and currently dealing with mold tooling, product development, designs on all processes as a comprehensive parts maker. Moreover, we are forcefully supporting for a customer's product development as a best partner with a high precision and speed based on our accumulated technology and the latest IT skill. Especially, the product development taken advantage of high-end three dimensional CAD with our accumulated know-how introduced from 1992 preceding the other companies, has been highly regarded by customers in various field. By tying data of each process from the design to the finished product seamlessly, the development period is reduced rapidly. Diversification of the preference of consumers, the product cycle becoming shorter and shorter, and cost cut, we always need to improve in our manufacturing. We do make customer's thought actual with One-stop-service (Integrated production system) in the fastest speed. We would appreciate your favor to our company as a best partner of product development.

President Satoshi Yoshimoto

Company data

Founded	1958
Incorporated	1977
Capital	10,000,000yen
Bank	Mitsubishi Tokyo UFJ Bank,Mitsui Sumiomo Bank,the Settsu Suito credit bank Resona Bank, the Small Business Finance Corporation, the People;s Finance Corporation

The history

1953	ASAHI KAKOU KOUGYOUSHO founded
1972	Factory is relocated to the present location. It shifts to injection molding from compression molding.
1977	It is name change to ASAHI KAKOU CO.,LTD.
1978	It certified with the U. S. UL Moulder program authorization factory. Authorization number A-1048
1982	A factory is newly established in 3-10, Tomobuchi-cho, Miyakojima-ku for extension of business
1994	A factory is newly established in China Shanghai. Company name: SHAGHAI ASAHI KAKOU CO.,LTD
1998	The Takakura factory is separated to incorporated company SANKYOU.
2003	ASAHI INDUSTRY AND SCIENCE TECHNOLOGY(SHANGHAI) CO.,LTD is established
2004.12	It is new factory construction completion to the Shanghai Matsue industrial division.Two factories are unified.ISO 14001-attestation-acquires.
2005.3	ISO 9001 attestation acquisition
